

Amerisolar Modules Approved By DEWA in United Arab Emirates

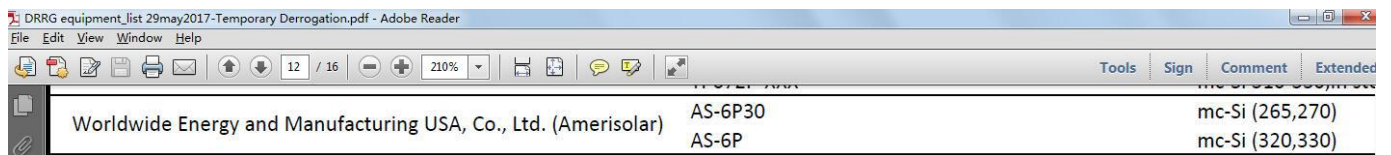

Dubai, United Arab Emirates, May 29th, 2017 --As a solar brand originated from America (USA) with production bases in USA, China, Taiwan and Vietnam, Amerisolar is taking more competitive strategies based on its **Leading Solar Technology, High Quality, Competitive Prices**, and global **Door-to-Door logistics services**.

Amerisolar announced today that its 4 types of high efficiency solar modules have been approved by DEWA in United Arab Emirates (AS-6P30 -265w/270w and AS-6P-320w/330w). The details can be found at:

<https://www.dewa.gov.ae/en/consultants-and-contractors/innovation/innovation-services/list-of-eligible-equipment>

DEWA is a UAE government agency for solar and renewable energy. To be approved by DEWA means that Amerisolar modules are qualified and in compliance with DEWA energy efficiency standards and requirement for UAE government solar projects. Amerisolar is one of the very few solar companies in the world that has been approved by DEWA.

Worldwide Energy and Manufacturing USA, Co., Ltd. (Amerisolar)	AS-6P30	mc-Si (265,270)
